As the novel H1N1 influenza impacts our community, state, nation, and world, it is important to discuss the impact of the influenza on normal continuity of operations in the workplace.

This program will:

- *Provide an overview of the H1N1 influenza
- *Outline the steps that can be taken to help prevent the spread of the virus
- *Discuss the challenges that public safety agencies could face in the influenza outbreak
- *Discuss surge capacity and how to address large numbers of people with flu like illnesses
- *Outline the priorities and procedures for vaccination
- *Discuss options for the workplace when large numbers may be affected with the influenza
- *Provide a forum for questions and answers concerning the novel H1N1 virus.
